High Summer 2010 Collection - Glamazon

Your flight is booked and the beach is beckoning, it's time to prepare in style for that longed for summer vacation.

Jasper Conran's striking Ikat print in hot pink and a rich purple exudes sun-kissed glamour. With a distinctly relaxed feel evident in two new 'slouch' styles this collection is perfect for a far flung beach adventure.

The cabin upright is the perfect size to carry on board, and the tote is large enough for your kaftan, sun cream and a book. What else do you need on the beach?
